

Demi Diamond System

Trapping solution for adult Webbing Clothes Moths – *Tineola bisselliella*

The Demi Diamond System is designed for flying insect pest monitoring. It is supplied in two parts: a plastic triangular, clip together frame and replaceable, rectangular pheromone baited glue cards. Be sure to use the correct glue insert for the species you wish to catch or monitor. The cards with blue grid are appropriate for the Webbing Clothes Moth (*Tineola bisselliella*). The pheromone is the same as that released by the female moth to attract males.

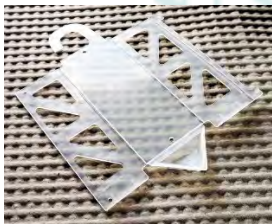

The unopened pack has a four-year shelf life from date of manufacture. Store in a cool location out of direct sunlight. Once removed from the sachet and the cover paper removed the glue cards will remain attractive for at least 12 weeks. Seal opened sachets well until the remaining cards are required for use. Store in a cool place, such as a fridge (4°C). The pheromone level will reduce with time and the release is faster at higher temperatures.

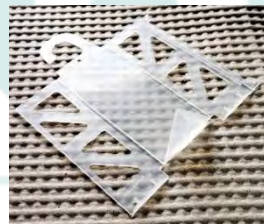

Directions for use

Firstly assemble the trap (see below). Flex the joints a couple of times to make folding easier. Remove one card from sachet and peel off cover paper. Insert inside trap with glue surface facing to centre. Place in any area where clothes moths are likely to be present. Webbing Clothes Moths are not strong fliers and so place on a low shelf or floor, or leaning against the floor-wall junction. Place no closer than 2 metres apart. The plastic frame will protect the glue card from accidental contact, such as with vacuum cleaners and pets, or from being walked on.

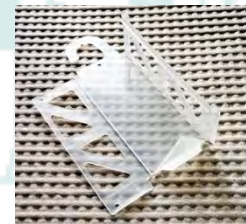

Assembly

As supplied

Fold base triangle upwards

Fold in one side

Fold in second side

Press together both studs

Ready for use

Historyonics Social and Environmental Commitment

We are committed to ensuring our business delivers societal benefits in improving the internal and external environments in which we live and work. We equally encourage our clients to consider carefully which products are purchased, how they are used and ultimately disposed. Please order only what you need and ensure that products and packaging materials are recycled or reused where possible. Contact info@historyonics.com should you require more information.
