

Phobi F&F One-Shot

An insecticide aerosol for professional use against cockroaches, fleas, flies, bedbugs, moths, mosquitos, gnats and other crawling and flying insects such as stored product pests, including confused flour beetles and biscuit beetles.

For use in enclosed indoor situations, domestic premises, food preparation premises, building trades, kitchens and bakeries.

Each can will treat a volume up to 375m³ (assume 150m² at 2.5m room height).

Active ingredients:

imiprothrin 0.11% (pyrethroid)
cyphenothrin 0.33% (pyrethroid)
pyrethrum extract 0.01% (natural pyrethrum)

Size 300 ml

Directions:

Read the label fully before use. Prepare a flat secure spot on which to place the cannister. With the top of the cannister pointing away from you, activate the aerosol with a quarter turn twist clockwise until it locks. The contents will continue to be released until empty. Ensure you leave the area of application immediately and close any doors / windows etc behind you. For best control of pests leave the treated area for at least 2 hours before re-entering. Thoroughly ventilate the treated room before entering (between 2 hours to half a day, depending on the possible ventilation level).

For best results, vacuum all flooring and rugs thoroughly before application. Move furniture and other movable objects away from walls and sides of rooms. Insects like warm, dark areas where they are protected from disturbance. The aerosol can only treat visible surfaces; we would recommend using Constrain to treat any areas that the aerosol is not able to reach. Remove all living creatures from the room being treated and close the windows. Ensure all electrical appliances are turned off and any pilot lights or naked flames in the room have been extinguished.

For use only as an insecticide. This product is approved under The Control of Pesticides Regulations 1986 (HSE No. 10680) for use as directed.

Historyonics Social and Environmental Commitment

We are committed to ensuring our business delivers societal benefits in improving the internal and external environments in which we live and work. We equally encourage our clients to consider carefully which products are purchased, how they are used and ultimately disposed. Please order only what you need and ensure that products and packaging materials are recycled or reused where possible. Contact us at info@historyonics.com should you require more information.
